

Mayra Fernanda Camacho Rodríguez

ABOUT ME

Information and Computer Technologies Student. I am really interested at the opportunity to engage in real like projects that mean something. I have a wide range of interests, and I am really motivated to learning more things in technology and innovation. I want to make projects that matter, as well as learn from senior professionals that already have years of experience.

► SMALL AND PERSONAL PROJECTS

Personal webpage at yranda.com, I made to practice **web development**. So far I have learned **Bootstrap** and CSS, the website is currently down since I yet intend to implement **React**.

Web app Hogar a tiempo, made with react and AWS technologies (cognito, dynamo, Lambda and amplify) currently in development.

EXPERIENCE

Software development, web development (HTML, bootstrap, CSS), queries, database management (relational and not relational MySQL/MongoDB), basic networking configuration (routers, switches), game development (unity), Python, C#, C++, JavaScript, Matlab and git.

EDUCATION

COLLEGE: INSTITUTO TECNOLÓGICO Y DE ESTUDIOS SUPERIORES DE MONTERREY (ITESM)

Degree in Computer Technologies

2020 - today

HIGH SCHOOL: INSTITUTO TECNOLÓGICO Y DE ESTUDIOS SUPERIORES DE MONTERREY (ITESM)

Program: International Baccalaureate

2016 - 2019.

LARGE PROJECTS

"Atizapán te informa": App development School project I made in college for the municipality of Atizapán. It had a duration of 3 months involved **android studio**, **third party APIs** (Google Maps), **flask** identification and **deployment**.

"Jerbo": Platformer video game, in which I programmed in C#, made a basic webpage using **CSS** and **HTML** that contained, data obtained from a database (**XAMPP**, **MySQL**) and permitted its visualization with **PHP**, **queries**, **google chart API**. The webpage was hosted for 3 months with the service **Digital ocean**.
